DETAILED ACTION

Remarks

1. All rejections, as set forth in the previous Office Action, are withdrawn.
2. The replaced drawings filed 8/25/03 are approved.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

4. The application has been amended as follows:

The title is changed from "Flip chip interconnection structure" into – A method of forming a flip chip interconnection structure --.

Allowable Subject Matter

5. Claims 1-9, 19-30 and 32-35 are allowed.
6. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record, Hogerton et al. to US 5,714,252 and Ikegami to US 6,194,781, teach a related method of forming the flip chip interconnection structure, as stated in the previous Office Action.

However, none of prior art of record teaches or suggests that a width of the second member surface is *smaller* than a width of the first member, wherein the first member comprises a *deformable* material having a low yield strength and a high

elongation to failure and the second member has *surface asperities* on a surface on a part of the second member.

Therefore, the instant invention is neither anticipated nor rendered obvious over the prior art of record.
